R Markdown

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see <http://rmarkdown.rstudio.com>.

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

```
summary(cars)
```

```
##      speed      dist
##  Min.   : 4.0    Min.   : 2.00
## 1st Qu.:12.0    1st Qu.: 26.00
##  Median:15.0    Median : 36.00
##  Mean   :15.4    Mean    : 42.98
## 3rd Qu.:19.0    3rd Qu.: 56.00
##  Max.   :25.0    Max.    :120.00
```

Including Plots

You can also embed plots, for example:

	Sexo					
	Masculino		Feminino		Total	P-Valor
	n	%	n	%		
SERASA						0
Nao			59.0	18.0	17.3	5.8
Sim	0.9	66.6	16.7	10.7	5.1	
Neutral	1.4	16.6	70.8	8.0	3.1	
Little positive	0.3	11.2	20.0	68.0	.5	
Positive	4.9	7.8	17.5	69.9		

Table 1: Classification results for the valence dimension.

Note that the `echo = FALSE` parameter was added to the code chunk to prevent printing of the R code that generated the plot.
